DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Varn, as set forth in the previous office action.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Varn in view of Neal.

Varn discloses in figures 1-8 an orthopedic splint, substantially as claimed. However, Varn does not disclose the padding having a bifurcated end. Neal teaches in figures 1-3 an orthopedic splint comprising padding 10, having a bifurcated end 30. It would have been obvious to one having ordinary skill in the art at the time that the invention was made that the padding disclosed by Varn could be fabricated with a bifurcated end as taught as Neal in order to allow the padding to bend to conform to the calf or any other part of the leg.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Varn in view of Meier.

Varn discloses in figures 1-8 an orthopedic splint, substantially as claimed. However, Varn does not disclose the padding having a bifurcated end. Meier teaches in figures 1-3 padding 20, having a bifurcated end (the open end of the device at reference number 28). It would have been obvious to one having ordinary skill in the art at the time that the invention was made that the padding disclosed by Varn could be fabricated with a bifurcated end as taught by Meier in order to allow the bifurcated end to conform to the calf or any other part of the body.

Allowable Subject Matter

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed April 5, 2004 have been fully considered but they are not persuasive. Applicant argues that Varn does not disclose anterior tie strips that push the thigh backwards and lower posterior tie strips supporting padding on the calf. However, Varn discloses in figure 7 anterior tie strips (86,88) that art attached to the thigh and posterior tie strips 78 that are attached to padding 92. The function of the tie strips was not given patentable weight. Thus, whether the tie strips push against the

thigh does not provide any novelty over tie strips fasten around the thigh. As for claim 3, the rejection has been changed. Thus, no arguments will be provided for that rejection. Claim 4 has been indicated as allowable over the prior art.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
